

ANALYTIX QUICK START GUIDE

Rapid Onboarding Guide & Key Scientific Workflows

Document Type: Official Technical Operations Guide

Version: 4.0.0 (Production Release)

Regulatory Status: FDA 21 CFR Part 11 Compliant Environment

Author: AnalytiX Biopharma Solutions Division

Classification: CONFIDENTIAL

1. Platform Onboarding

Welcome to the AnalytiX platform. This Quick Start Guide gets you set up and running scientific queries and AI prompts within 10 minutes.

2. Initial Login & Session Setup

1. Open your web browser and navigate to the platform URL.
2. Log in using your email address and credentials.
3. Verify that the 'SECURE SESSION' indicator is active in the top right corner.

3. Running Your First Structure Search

1. Open the sidebar and click on **Compound Explorer**.
2. In the chemical structure drawer, sketch your target molecule (or paste a SMILES string).
3. Select the search mode (Exact, Substructure, or Similarity).
4. Click the 'Execute Search' button.
5. Review matching compound records in the results grid.

4. Using the AI Scientist Copilot

1. Click **AI Scientist Copilot** in the sidebar.
2. In the chat input field, type: *"What compounds target EGFR?"* and press Enter.
3. The copilot retrieves matching compounds from the database, displays their structures, and lists active assay values.

5. Basic Troubleshooting Quick-Fixes

- **Blank Screen on Startup:** Clear your browser cache and refresh the page to reload the chemical structure drawer modules.
- **Session Expired Message:** Your session will automatically log out after 15 minutes of inactivity to comply with security requirements. Re-enter your credentials to resume work.
